To Whom it May Concern

As Music Coordinator and as Diversional Therapist I have known Alex Barbakh for a period of approximately 6 years. During this time he has at my request entertained for us on three different group levels, with older Citizens, Hostel residents and Dementia specific residents, within two facilities.

I have found him to be a reliable and inspiring musician, who is able to organize his own program appropriately within the relevant environment, in a well disciplined manner.

He provides an excellent repertoire of music, sometimes taking his audience on a tour of the world through music. His use of classical music is creative and pleasing, amongst other disciplines.

I have always found him respectful and caring towards residents, and works efficiently alone when required. He presents in a professional manner, and has always fulfilled engagements to the pleasure of his clients.

I recommend this gentleman to you,

Yours faithfully,

Dorothy Trigg
